

1

Create an account in the subscription portal at <https://account.verinice.com/en/>. Confirm via the email sent to you.

2

Subscribe to one of the bundles, add optional units and more users. Alternatively, try the free EVAL version for 30 days.

3

In the subscription portal, you create the main account for the user application, either for yourself or for a designated person.

4

The verification email for the user application must also be confirmed.

5

The main account serves as the administrative account for the application and can be accessed via <https://eu.verinice.cloud>

6

In the specialized application, you create the purchased additional users with the designated names and e-mail addresses. Here you also activate additional units.

! Please note that each new account in the application needs to be verified by a verification email before you can log in for the first time.
